General Hiking Activities through the Hotel

SELF-GUIDED HIKING

Camelback Mountain beckons hikers who love the Sonoran Desert, sandstone rock formations and unparalleled views of the valley. With some of the most scenic trails in Arizona, Paradise Valley has the right hiking route for every level.

Echo Canyon Trail is one of the most popular hiking trails in Paradise Valley and is located behind the resort. Rated one of the tougher hikes in the area, this hiking path has dirt, gravel, boulders, steep grades, some handrail-assisted sections, and is recommend for those who maintain a higher fitness level. The distance to the top is 1.14 miles and will take approximately 1.5 to 3 hours to reach the summit and back.

Cholla Trail is 1.4 miles to the summit and is located 4 miles east of the resort. Cholla does contain steep grades and resembles more of a hike than a climb. In order to reach the top, however, three-quarters of the way up the mountain, hikers will come across a section that requires maneuvering through large sections of boulders, so it's recommended that hikers proceed slowly and carefully. Hiking time is approximately 45 minutes to an hour, each way.

To learn more about nearby trails, descriptions and difficulty levels, please visit the concierge or the fitness desk.

GROUP GUIDED HIKES

Emergency Response Procedures

All fire evacuation procedures are posted on the back of guest room doors. If guests are in the meeting space, we evacuate all guests either to Cortijo Plaza or the top of the parking structure. We do have an emergency response team on property to assist with guest evacuations.

In case of power failure, we ask that all guests remain in their room- we do have backup generators and emergency lighting throughout property. If the power outage is lengthy, we do establish a "Safe Room" (meeting room or ballroom) for guests to gather.

For any emergencies that occur on property, please dial extension **8888** and notify the operator of the emergency. The Manager on Duty at the Front Desk and the Loss Prevention Officer on duty will be a primary point of contact for all emergencies.

The Loss Prevention Team is certified in First Aid & CPR.
